

AIM: PLAYER CHOOSES NUMBER 1-12
 PLAYER PLACES CERTAIN AOUNT OF CREDITS ON A NUMBER
 EXAMPLE BELOW = 3 CREDITS ON MUBER 6

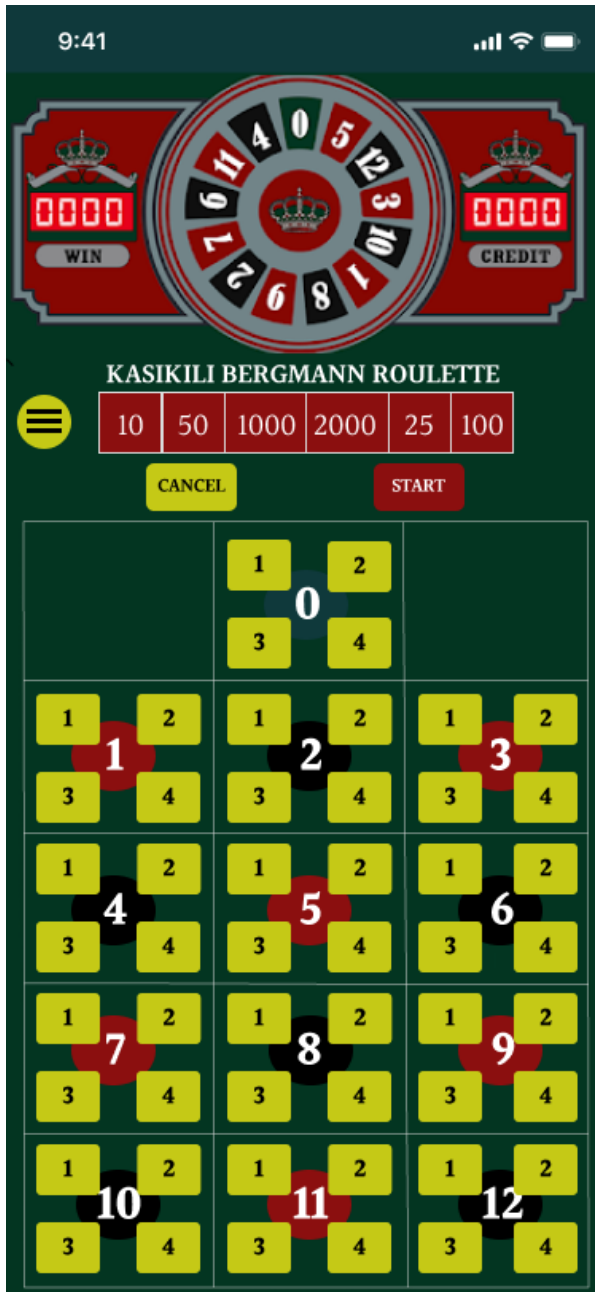

IF THE WHEEL LIGHT IN THE WHEEL LANDS ON NUMBER 6

MEANS – PLAYER HAS WON AND “**RANDOM WINNING MULTIPLYER BAR**” GETS ACTIVATED

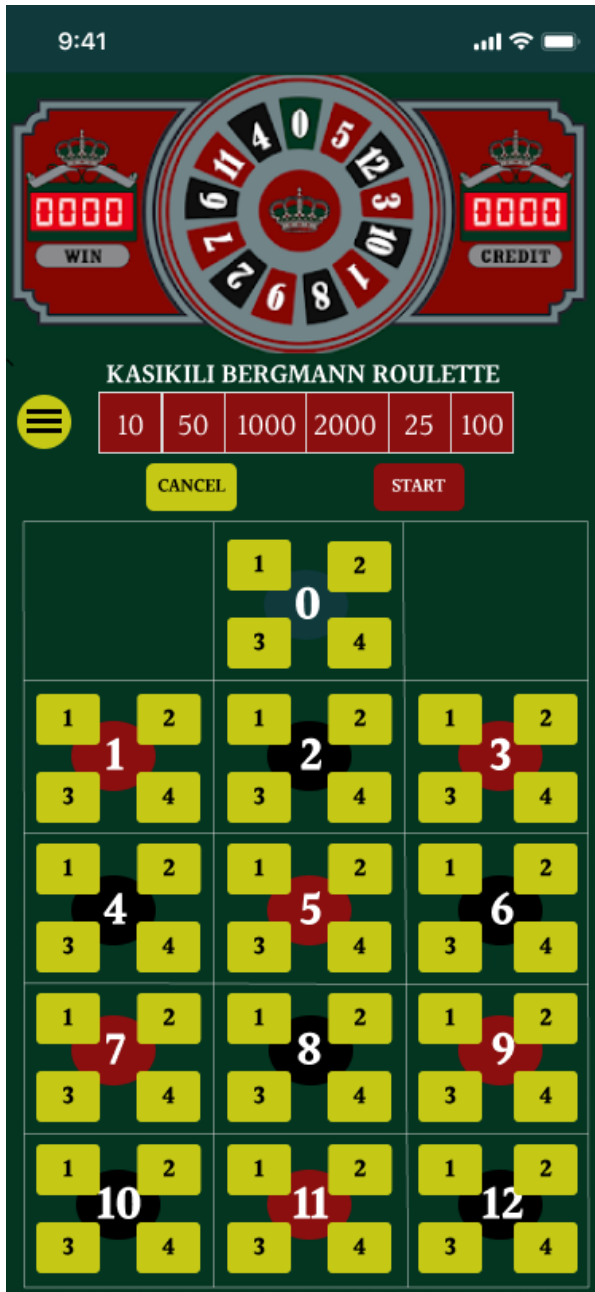

MEANS – PLAYER HAS WON AND “***RANDOM WINNING MULTIPLYER BAR***” GETS ACTIVATED

If bar gets activated:

1. sound starts
2. light flashes randomly (not from 10→50->1000-> 2000 in sequence but randomly
3. it flashes fast so player cant predict , fast and random
4. it lands according to Random Bar Wining Probabilitliiy set by Admin and Dev

USING PREVIOUS EXAPMLE
USER BETS 3 CREDITS ON NUMBER 6

IF LOSSES HE LOSSES 3 CREDITS (this will happen 30% of the time) as per pre-set ***Game Wining Probability %***

IF USER WIN, random winnings multiplier Bar (RNWMB) is activated:

** it flashes randomly for as much seconds as its music sounds play , I think 1 second

** then it lands on one of the number as ***per PRESET*** out ***RNWMB – percentage***

IF it lands on :

10 the $3 \times 10 = 30$ Winings

50 then $3 \times 50 = 150$ winings

1000 then $3 \times 1000 = 3000$ winings

2000 then $3 \times 2000 = 6000$ winings

25 then $3 \times 25 = 75$ winings

100 then $3 \times 100 = 300$ winings

SOUNDS EXPLAINED

1 + 2 cancel and start same sound
Reset also has same sound as cancel
and start because RESET = cancel

3. Choosing number has its own
sound

4. Will spin and loose sound

5. Will spin and win sound

- First – Number + Crown Flash sound
- Secondly, after 2 -3 seconds , activates **Random Number Multiplier bar** + its sound

6. **Random Number Multiplier Bar (RNMB)** sound (only upon win)

7. Jackpot music sound only when RNMB lands on 1000 or 2000
